EDUCATION

Beijing Institute of Technology (joint program with Beijing Foreign Studies University) Sep 2023 - Jun 2027 (expected)
***Major in Information Management and Information System & English* | GPA: 88/100** Beijing, China

- Core Courses: Python Programming, Data Structures, Management Information Systems, Introduction to Database Systems, R Language Data Science Practice, Machine Learning, Applied Statistics, Operations Research
- Honors: Second-Class Academic Scholarship (2025), Third-Class Academic Scholarship (2024)

PUBLICATIONA

J, Chen., **X, Liang**. Multidimensional Prediction and Characterization Based on Random Forest and Linear Regression in Complex Data Scenarios. (2025) In *2025 International Conference on Data Analysis and Computer Science (ICDSCA)*. IEEE.

RESEARCH & PROJECTS

Network Prediction Generalization and Agent Memory Systems Based on Large Models Dec 2025 - Present
Intern Researcher | Supervisor: Prof. Yang Ning, Institute of Automation, Chinese Academy of Sciences

- Contribute to the development of a Mixture-of-Experts-based large-model framework for cross-scenario traffic forecasting, incorporating continual learning mechanisms for time-domain generalization in anomaly prediction.
- Investigate frontier LLM-based agent memory architectures, including multi-agent memory systems (MIRIX), automated memory augmentation (MemInsight), and neuro-symbolic temporal reasoning (TReMu).
- Explore evaluation frameworks for long-term personalized multi-turn dialogue agents, optimizing interaction quality.

Techno-Economic Assessment and Policy Design for Biofuels Supply Chains Sep 2025 - Present
Research Assistant | Supervisor: Dr. Yu Wang, Institute for Energy, Environment and Economy, Tsinghua University

- Build a global dataset of production costs and capacity for bio-methanol and green methanol, conducting comparative analysis of production pathways, including biomass gasification and CO_2 + green hydrogen synthesis.
- Develop a cost prediction model based on IRENA's report and the constructed dataset to evaluate the cost structure of bio-methanol and green methanol production technologies under different market scenarios.

Nationwide Siting Prediction for Wind/Solar Power Plants Using Spatiotemporal Data & Machine Learning
Research Assistant | Supervisor: Prof. Ronggang Cong, Beijing Institute of Technology Jun 2025 - Sep 2025

- Built and optimized Random Forest and linear models, applying cross-validation to ensure stability and generalization.
- Quantified prediction uncertainty via Monte Carlo simulations, evaluated feature importance using AHP, and incorporated temporal decay factors for dynamic analysis.

Intelligent Grid Scheduling System for Climate Disaster Response | *Project Leader* Jan 2025 - Mar 2025

- Developed an integrated disaster-warning, real-time monitoring, and automated scheduling system.
- Built Random Forest and LSTM–based prediction models, achieving 500-meter grid-level accuracy.
- Applied DQN + Q-Learning to optimize load scheduling, reducing outage duration by 20% and recovery time by 25%.
- Implemented real-time data acquisition using PyVISA/Modbus and streaming using Kafka.
- Obtained a software copyright as the first author.

Reinforcement Learning–Based Meteorological Forecasting System | *Project Leader* Sep 2024 - Dec 2024

- Built spatiotemporal features using tensor fusion + EWT; employed a Transformer with multi-task learning for prediction.
- Applied Q-Learning to enhance extreme-weather forecasting; built a domain knowledge base via LLM fine-tuning.
- Achieved 500 m grid resolution, >91% 72h extreme-weather path forecasting accuracy, and 60% faster response.
- Obtained a software copyright as the second author.

INTERNSHIP

BWJ (Beijing) Technology Co., Ltd. | *IoT Development Intern* Beijing, China | Aug 2025 - Sep 2025

- Deployed PreSens SN-3008-WS-N01 temperature–humidity sensor with ModBus-RTU, enabling stable data acquisition.
- Used Shifu and Linux VM for device configuration deployment and networking setup.

China Electric Power Research Institute (CEPRI) | *Project Intern* Beijing, China | Jul 2025 - Aug 2025

- Calibrated Fluke 8588A voltage standard, computing correction factors to ensure high-precision voltage measurement.
- Developed a DC energy assessment system in Python for device communication, data logging, and error analysis.

COMPETITIONS

The 19th "Challenge Cup" National Special Competition | **National Grand Prize** & **National 2nd Place** Nov 2024
The 18th "Challenge Cup" Guangdong Competition | **Guangdong Provincial First Prize (top 10%)** May 2025
The 15th "Innovation, Creativity and Entrepreneurship" Challenge Competition | **Beijing First Prize (top 10%)** Jun 2025
The Mathematical Contest in Modeling (MCM) | **Honorable Mention** Mar 2025
Challenge Cup Capital University Entrepreneurship Program Competition | **Beijing Gold Prize** Jun 2024

SKILLS

Language: Chinese (native), English (fluent, TEM-4/IELTS-6.5)
Technical: Python, R, SQL, HTML, CSS, Microsoft Office (Word/Excel/PowerPoint)

北京外国语大学成绩说明
Beijing Foreign Studies University Grading System

■ 平均学分绩点(GPA)/Grade Point Average(GPA)

GPA的计算方法是把各科成绩按等级对应的绩点乘以学分求和，再除以总学分: $GPA = \frac{\sum 课程绩点 \times 课程学分}{\sum 课程学分}$

GPA is calculated by dividing the total points for all courses earned by the total number of credits attempted in all semesters:

$$GPA = \frac{\sum Grades \times Credits}{\sum Total\ Credits}$$

■ 加权平均分/Weighted Average

加权平均成绩是指每门成绩乘以它的权值比例后算出的平均成绩: $加权平均分 = \frac{\sum 成绩 \times 课程学分}{\sum 课程学分}$

Weighted Average is equal to the sum of the course percentage scores times course credits, divided by the sum of the course credits:

$$Weighted\ Average = \frac{\sum Percentage\ Scores \times Credits}{\sum Total\ Credits}$$

■ 成绩评定/Grading System

考试课程主要采用百分制，部分其他类型课程记录为等级制：

Examination courses are mainly graded using the Hundred Percentage Scoring System, while some other types of courses are reported according to the Level Grades System:

百分制/Hundred Percentage Scoring System					
分数/Scores	绩点/Grade Points	等级/Level Grade	分数/Scores	绩点/Grade Points	等级/Level Grade
90-100	4.0	A	72-74	2.3	C
85-89	3.7	B+	68-71	2.0	C-
82-84	3.3	B	64-67	1.5	D+
78-81	3.0	B-	60-63	1.0	D
75-77	2.7	C+	0-59	0	F

四级制/Four-level Grade System			
等级/Level Grades	分数/Scores	等级/Level Grades	分数/Scores
优秀/Excellent	90-100	及格/Pass	60-79
良好/Good	80-89	不及格/Failure	0-59

二级制/Two-level Grade System	
等级/Level Grades	分数/Scores
合格/Pass	60-100
不合格/Failure	0-59

■ 成绩备注说明/Score Description

成绩/Scores	说明/Description	是否纳入GPA/Included in the Calculation of GPA
EX	免修免考/Exemption	否/No
I	缓考/Incomplete	否/No
IP	过程中/In-progress	否/No

■ 其他说明/Other Remarks

辅修双学位课程、成绩不及格的选修课、等级制记录的课程不计入GPA，其余课程全部计入GPA。

Double-degree courses, failed optional courses, and courses reported according to the Level Grades System are not included in the GPA. Other courses are all included in the GPA calculation.

Test Report Form

ACADEMIC

NOTE *Admission to undergraduate and post graduate courses should be based on the ACADEMIC Reading and Writing Modules.*
*GENERAL TRAINING Reading and Writing Modules are **not** designed to test the full range of language skills required for academic purposes.*
*It is recommended that the candidate's language ability as indicated in this Test Report Form be re-assessed **after two years** from the date of the test.*

Centre Number	CX194	Date	28/JAN/2026	Candidate Number	669299

Candidate Details

Family Name	LIANG
First Name(s)	XIAOXUAN
Candidate ID	140108200509230022

Date of Birth	23/09/2005	Sex (M/F)	F	Scheme Code	Private Candidate

Country or Region of Origin	CHINA (PEOPLE'S REPUBLIC OF)
Country of Nationality	
First Language	CHINESE

Test Results

Listening	Reading	Writing	Speaking	Overall Band Score	CEFR Level
